- Continuous Learning

Language

Nepali

English

Hindi

Niraj Giri

As a Computer Application student, I bring hands-on experience in crafting effective web solutions. Proficient in C, PHP, HTML, CSS, and JavaScript, I've successfully developed impactful projects like the Medixo Hospital website . My track record includes seamless integration of APIs like Twilio and Google Maps, along with creating strong database solutions. Currently immersed in a dynamic ecommerce project, I showcase a dedication to continuous learning and collaboration in the evolving realm of web and mobile development.

Experience

2023 - Present

Divine Mines and Gems | Dynamic E-commerce

Web Developer | Freelancing Project

Key Responsibilities:

- Utilizing HTML, CSS, JavaScript, and PHP to create a platform with secure payment gateways and a user-friendly interface
- Implementing API integration for real-time updates and personalized recommendations
- Ensuring robust SQL-based database management for data security
- Actively collaborating with the Divine Mines and Gems team, gaining insights into client expectations and effective project management in E-commerce development
- Developed website: https://divineminesandgems.com/

2023

Project I | Online Doctor Appointment System | Medixo Hospital

Web Developer | 4th Semester Project

Key Responsibilities:

- Built a comprehensive Online Doctor Appointment System system using HTML, CSS, JavaScript, and PHP
- Seamlessly integrated with Twilio API for appointment reminders and leveraged Google Maps API for location tracking
- Utilized SQL for secure data management, enhancing the user interface for patients
- Developed website: https://medixohospital.great-site.net /
